

80 Watt District-PBID Street Banner Application

80 Watt District-PBID
Building a stronger sense of place

The **80 Watt District-PBID** Street Banner Program allows banners on ornamental poles and cobra poles and is limited to banners related to branding, promotions, events, festivals, parades and walk/run events within the boundaries of the 80 Watt District. Street banners enhance the streetscapes of communities, by adding a vibrant element that enlivens key corridors and the mobility experience for pedestrians, cyclists, transit users, and drivers. *Our street banner program is an effective tool which provides service to the community and will strengthen the sense of place and the district identity.*

80 Watt District-PBID Street Banner Guidelines

Application and Permit Process

The Street Banner Application should be submitted to 80 Watt District-PBID at least 60 days prior to the desired installation date. After receipt of the application, an 80 Watt District-PBID representative will be in touch to discuss your banner design and submission of logo and photo. Stock photo will be purchased, if available.

**Our FIRST PHASE banners-will be on WATT AVENUE.
We reserve the right to place your banner in the best spot available.**

Campaign Duration and Installation and Removal Dates

Banners are hung for 12 months, however, the campaign may be extended. The 80 Watt District-PBID is not responsible for loss or damage of banners due to any other cause such as wind, weather, theft, vandalism, fire, earthquakes or acts of God.

**This first campaign (#WattsHappening) is available on 76 of the light poles-ready to showcase your business in the 80 Watt District. Our 'FIRST PHASE' will take place on Watt Avenue. Other promotions may be happening within this same time frame, such as:

- Holiday Decorations
- 'Shop Local' events
- Watt's Happening Meet & Greet networking events
- Social Media Marketing Promotion

Banner Placement

There are 30 foot tall cobra head street light poles along Roseville, Madison, Longview and Watt Avenues, within the 80 Watt District boundaries available for sponsorship. (30 "width x 94" length) .

The final cost of production, installation, and removal will be determined by and arranged through the pre-approved manufacturer and installation companies. The applicant is responsible for the cost of replacement of any damaged or stolen banners, as the 80 Watt District cannot be liable.

Banner Material

All banners will be manufactured for exterior use, able to withstand a wind load of 80 mph, and have an ultra violet inhibitor to retard fading and tearing. Banners shall not be retro reflective. Fasteners on banners must be fastened to mounting hardware with heavy spur grommets

Banner Design

All banners will have a **double sided design**. The 80 Watt District branding/identification will be added to the banners. Applicant will need to provide high-quality logo and photography, matching our style of design (see below) We can purchase a stock photo, if needed.

The Street Banner Program provides a service to our community, business, arts and cultural groups, and other organizations that need an effective tool to promote events and public information of interest and benefit to 80 Watt District business, residents and visitors.

Street banners enhance the streetscapes of the 80 Watt District, by adding a vibrant element that enlivens key corridors and the mobility experience for pedestrians, cyclists, transit users, and drivers. Our street banner program strengthens the sense of place
